Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The submission of amendment filed on 9/06/2005 is acknowledged. At this point claim 1 has been canceled and the new claim 2 has been added. Thus, claim 2 is at issue in the instant application.

Claim Objections

Claim 2 is objected to because of the following informalities:

- it is unclear what Applicant intends by “*electrical circuit in combination with said light elements emit visible light*”. Electrical circuit cannot **emit** the light even in a combination with the light source, but provides an electrical power only;
- the phrase “*when illuminated display the form...*” (line 17) should be changed to - *when illuminated displays the form...;*
- the phrase “*...form of two cats positioned together which together form...*” (line 17) is unclear;
- determinations “*significant strength*” (line 20) and “*most advantageously useful*” (line 23) are indefinite.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

Art Unit: 2875

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Lamparter (US 5,604,480).

Lamparter discloses (Figs.2, 5) a lighting device having a plurality of arrays of LEDs [20'] that form a plurality of differently shaped symbols. The device includes an electrical circuit ([53]+[62]) and a light having two different colors (col.2, lines 25-30).

It would have been an obvious matter of design choice to provide the different decorative shapes formed by the arrays of the LEDs for the purpose of an aesthetic appearance.

Response to Arguments

Applicant's arguments filed 9/06/2005 have been fully considered but they are not persuasive.

Applicant argues, that Lamparter discloses the device displaying the words, but does not display two cats positioned together to form a hearth shape.

In response, the reference cited in the Office Action discloses the device having the structure in accordance with the claim limitations. The structure can obtain any desired shape, which is a matter of design choice, because does not change functionality of the device and used for the purpose of an aesthetic appearance only. Difference between the “Utility patent” and “Design Patent” Applicant can find in the MPEP, chapter 1500.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
